The Attendants at their Wedding Were Among Those Present

Mr. and Mrs. Theodore Schonert, two of the county's most respected residents celebrated the fiftieth anniversary of their marriage, Sunday at their home in Gings. Their sons and daughters and their families and other relatives and friends to the number of about seventy-five were present.

Mr. and Mrs. Schonert have eight children, all of whom were present. The children are: Wm. Schonert and wife, from Salt Lake City; Henry Schonert and family, of Ging; Mrs. Anna Kammerling, of Chicago; Philip Schonert and wife, of Salt Lake City; Mrs. Fredrica McManus, husband and family, of Rushville. Mrs. Amelia Schmazel, husband and family, of Rushville; Mrs. Theresa Custer, husband and family, of Union township; and Miss Flora Schonert, the youngest of the family.

The original bridegrooms and bridesmaids, that stood up at the wedding of Mr. and Mrs. Schonert, were present at the golden wedding, which may be regarded as extraordinary remarkable. They were Mr. and Mrs. Philip Mohr, of Columbus, Ind., and Mr. and Mrs. Henry Heineman, of Tipton county.

Other relatives present were: Mrs. Emma Peiper, of Cincinnati, Henry Strautman and wife, of Cincinnati, Mrs. Elizabeth Hamill, of Salt Lake City.

Mr. and Mrs. Schonert received many valuable presents.

Mrs. Emma Peiper brought the wedding cake from Cincinnati, a most elaborate affair, finely decorated, with a miniature fac-simile of an old water-mill by a sturdy old oak.

During the afternoon, Mr. Frank Wallace, the photographer, took a series of pictures of the venerable couple and their children. J. D. Case, of this city presented Mr. and Mrs. Schonert with a box flowers and brought Rev. McConnell to and from the city.

Mr. and Mrs. Schonert were married June 10th, 1856, in Franklin county. Both were born in Germany, the former in 1833 and the latter in 1833. Mr. Schonert emigrated to this country in 1852. Mrs. Schonert had previously come to this country in 1849. After their marriage they located a mile east of Ging, where Mr. Schonert opened a blacksmith shop. After a residence of several years there they returned to Franklin county. They came to Ging again in 1877 and have resided there ever since. During his residence in Franklin county, Mr. Schonert served as trustee of Salt Creek township for eleven years.

The aged couple who so happily rounded a half century of married life Sunday are widely known throughout the county. They have a host of friends who wish them many returns of the day. Their married life has been a most happy one and they have reared a family of which they are privileged to be proud.

Donald McIntosh, of Connersville, was the guest of Miss Adelia Mege, Sunday.

NEW WORM KILLING CORN

New Pest Appears in North Part of Henry County—Is Very Destructive.

Farmers in the vicinity of Middletown, Henry county, are suffering a great damage to the growing corn crop from a worm similar in many respects to the grub. The worm is from one and one-fourth inches in length and in diameter is hardly as large as an ordinary lead pencil. It is adorned with a black head, surmounted with a red top. It works just above the sprouting grain, cutting the roots from the grain. The stalk is left standing, and no damage is perceptible until the blades wilt, when the stalk can be readily lifted from the ground.

Samples of their work have been sent to Prof. James Troop, at Purdue University, for analysis.

One report is that in one field a part of the ground was plowed in February and the remaining part in April, and all was planted early in May. The part of the field plowed in February is free from damage by the worm, while the part plowed in April is almost totally destroyed. A number claim that it is the ordinary grub worm that is doing the damage, while others contend that it is a different and more dangerous worm. The report from Prof. Troop is anxiously awaited.

Nothing of the kind has yet been reported in Rush or other counties near.

WORK OF SETTING
POLES RESUMED

Track Laying and Ballasting on Connersville Line Continues Rapidly.

Work on the Connersville extension of the I. & C. in this vicinity is being carried on with the utmost rapidity. Four miles of track have been laid and about one and one-half miles of track east of Flatrock river has the first coat of ballast.

Today, D. C. Emery, foreman of the linemen, placed a force of forty men at work digging holes for the poles east of the Flatrock bridge. Holes have been made for a distance of one and a half miles. Another force of men is distributing the poles along the track, and another is setting them.

Mr. Emery has transferred all his men to this city from Shelbyville, and has begun stringing wire on the high tension line between this city and Manilla. The wire is up from Manilla to Shelbyville. All poles are set on this line except in Manilla and Homer. The work is delayed at these points owing to the failure of longer poles to arrive.

RESORT TO
DYNAMITE

Summary Action Taken Against a Reputed Blind Tiger.

Town of Brooklyn Shaken by an Explosion Which Destroyed Thornberry's Grocery.

Brooklyn, Ind., June 11.—Early Sunday morning the grocery store of Pat Thornberry was completely destroyed by dynamite. The terrific explosion shook the entire town, and many window panes were broken. The streets of the village were soon filled with frightened and half-clad residents, who rushed around in a state of panic endeavoring to ascertain what had happened. Flames breaking out from the ruins of Thornberry's store soon brought them to the scene of the disaster. A bucket brigade was hastily formed, and the fire was extinguished before it gained any headway or could communicate to other buildings.

In the meantime an effort was being made to find out who was responsible for the outrage. No clue has yet been found, though the citizens of the place declare that a thorough investigation will be made and the perpetrators brought to justice if possible.

For some time it had been rumored that a "blind tiger" was being operated in the place and frequent threats against the resort were made. Recently it was reported that several boys had purchased intoxicants at the place. This is thought to have brought matters to a crisis. No one was seen about the store, but a resident reported two shadowy forms disappearing in the darkness shortly after the explosion. Thornberry declares that he sold no intoxicants.

The store of Louis Sawyer, adjoining Thornberry's place, was badly damaged, the stock of groceries being shaken into a heap on the floor. Across the street the windows in the Louis Rinker store, the Brooklyn Hardware company's store and the postoffice were shattered to pieces.

O'BRIEN BOYS
LOSE HEAVILY

Barn and Contents Fired by Lightning and Almost Totally Destroyed

According to the Connersville News of Saturday says: "The barn on the farm of Thomas O'Brien, east of Glenwood, and occupied by Henry O'Brien, who conducts the farm, was destroyed by fire, last night, after being struck by lightning, about 11:30 o'clock. The barn was a large one, said to be worth from \$800 to \$1000. It was a total loss. Henry O'Brien managed to save some of the contents, all of which belonged to him. He rescued two valuable horses and some farm machinery, but his loss in machinery, tools, hay, grain, etc., he places at \$500. No insurance was carried, either on the barn or contents. The loss to both is quite severe, and at this time of the year is especially severe on Henry O'Brien, as it deprives him of a place of storage for the farm products raised."

TALK OF A
NEW CABINET

Politics in Struggling Russian Empire In Saddly Muddled State.

Mr. Stichinsky's Program Said to Have Created Much Internal Dissension.

St. Petersburg, June 11.—In spite of the official denial, belief that the retirement of the Goremeykin ministry is near at hand is reasserted by the Reich, the Constitutional Democratic organ, which apparently is looking forward hopefully to the installation of a cabinet more in harmony with the lower house of parliament. This hope apparently springs from the belief that the ministry is likely to go to smash through internal dissensions over the agrarian program of Minister of Agriculture Stichinsky, concerning which there has been much gossip lately. Members of the cabinet, however, assert that serious discord has not manifested itself. The project of M. Stichinsky has not yet been submitted to the ministry in toto, and preliminary discussion of it revealed no strongly adverse criticism to it.

The Liberal organs also give credit to a report that the emperor in deference to the sentiment of the lower house of parliament, has decided to suspend executions pending the enactment of a law abolishing them; but the rumor finds answer in the dispatches from Warsaw, where one man was hanged Saturday for an attack on a policeman and four have been condemned to death for sacking the township treasury; and from Riga, where a courtmartial of thirty-three members of the fighting band of the revolutionists has condemned to death seven men, among them the leader, known throughout the whole of the Baltic provinces as "Napoleon," and twenty to imprisonment from three to fifteen years.

A preliminary interpellation regarding the Riga courtmartial already has been presented to the lower house of parliament, as a verdict of guilty was anticipated, and it was not desired to give the military officers time to execute the sentences before the interpellation reached them through the regular channels, as happened at a previous execution of eight persons at Riga.

The elections in the Caucasus are everywhere going in favor of the Social Democrats. On account of the strike of sailors on the Black Sea, five electors at Sukhum were forced to appeal to the government for a torpedo boat to convey them to the Batum electoral assembly.

The agrarian disorders are steadily spreading in widely separated localities and the government, though it boasted of its ability to prevent disturbances this year, is unable to cope with them.

MANY ACCIDENTS IN
FAIRVIEW NEIGHBORHOOD

The advent of the present month will be remembered by several of the Fairview people because of a number of accidents. While none of the injuries are now considered dangerous, they required the attention of a physician to prevent them from becoming so. George Heizer, one of Fairview's successful farmers, was the first victim. In attempting to remove a limb that interfered with the telephone line, he fractured one of his ribs. Will Short, while dressing some fish, permitted a bone to penetrate one of his fingers. Blood poisoning was narrowly averted. On Friday, Berel Hinckman was twice bitten by a vicious dog, it being necessary to have one wound concentered. The same day, Donald Cook fell upon a hoe, cutting a long gash in one of his lower limbs.

Elmer Readle went to Columbus, Ind., today to superintend the work of fitting up the handsome new \$20,000 residence built by M. T. Reeves, Manzy and Denning, of this city, got the contract for furnishing the house.

Miss Eleanor Posey, of Indianapolis, is the guest of Mr. and Mrs. Ab Denning.

SEE INDIANA FIRST

Hoosier State Furnishes Many Places of Interest Before Going to Foreign Parts

There are a good many Hoosiers who rush to the ends of the earth every summer who could find rest and recreation right in their own State. There are several hundred lakes in the State that are easy of access and that are almost ideal places for summer outings. There fishing is good and restful sport abounds. In addition to the lakes there are several rivers whose beauty is equal to anything found in any State. But the Wabash and the Tippecanoe have been described in poetry and song and in no instance has the picture been overdrawn. If the restful vision of lake and river does not appeal to the summer wanderer, then the rugged hills and shaded dells of Southern Indiana offer scenery that rivals the mountain regions of other States. There is a movement on foot to create a sentiment that shall have for its motto, "See America First." The Hoosiers' motto should be, "See Indiana First." There is enough of natural beauty in the State to occupy at least one vacation season. And if one seeks only rest, these placid lakes or the rippling, laughing rivers invite the weary man and woman, and promise that they shall go away rested in body, calmed in mind and altogether in love with the beauty of good old Indiana.

INDIANA TALENT

Will Be Conspicuous at National Editorial Meeting.

Indianapolis, Ind., June 11.—Vice President Chas. W. Fairbanks is coming to Indianapolis next Friday to attend the meeting of the National Editorial association. He and Mrs. Fairbanks will give a reception to the editors and their wives at their home Friday evening, and the vice president will deliver a speech. He will return to Washington Saturday or Sunday, to remain until the close of the session. As usual, he will probably make Indianapolis his headquarters during the summer, but he has accepted invitations to deliver addresses that will keep him away from home much of the time. Senator Albert J. Beveridge is coming home next Thursday to deliver an address to the editors. He will talk to them about the newspaper business. Senator Hemenway had accepted an invitation to deliver an address, but he has been obliged to cancel it, as he can't get away from Washington now. The Hon. B. F. Shively of South Bend, the Hon. S. M. Ralston of Lebanon, and other distinguished Indiana Democrats have accepted invitations to participate in the program for the entertainment of the editors who will come Tuesday.

In the decision of Judge S. R. Artman of Lebanon in the case of the state vs. A. C. Daily, ex-auditor, to recover a large sum which he is charged with taking illegally from the insurance tax fund, some of former Auditor Sherrick's friends see hope for him. Judge Artman held that the auditor was not entitled to any fee for collecting insurance taxes, as these should have been paid to the state treasurer. A. C. Harris, Sherrick's attorney, made the point during the trial here that Sherrick could be legally charged with the insurance taxes, as the law provided they should be paid to the treasurer and inasmuch as they did not belong to his office he could not be held for their embezzlement. This contention has been raised in the supreme court, where the Sherrick case is now pending. J. G. McCullough, who presided as special judge in the Sherrick case, instructed the jury that Sherrick was chargeable with the insurance taxes. Judge Artman holds that Daily could not retain 10 per cent for collecting the insurance taxes, as the latter did not belong to his office. If Judge Artman is sustained in the supreme court, then the contention of Sherrick's attorneys may be also. Sherrick's friends, who see an analogy between the point made by his attorneys and Judge Artman's decision, are very hopeful that the supreme court will declare that he could not be charged, under the circumstances, with embezzlement.

Friends of ex-Auditor of State Dave Sherrick, who recently visited him at the state prison, say that he is beginning to show signs of improvement in health. They predict that he will leave prison much stronger physically than he has been for many years, unless he is borne down by worry. He is forced to keep regular habits and eat substantial food, and while he is still on the hospital list, he is gaining in an encouraging manner. Sherrick's lot is being made as easy as possible by the prison officials. His friends state that he is not the optimist that he was and that his troubles have caused him to age wonderfully. His

hair is turning gray and deeper lines are showing in his face. He is very hopeful, however, that the supreme court will reverse the decision in his case and give him a new trial.

Walter J. Lotz of Muncie, Democratic nominee for attorney general, is the youngest man on either of the state tickets this year. He is only twenty-six, but he has been active in politics for several years, having been elected secretary of the Delaware county committee before he became a voter. He is now chairman of the committee. He is following in the footsteps of his father, the late Judge Orlando J. Lotz, who was twice the candidate of his party for congress in the Eighth district. Judge Lotz was a member of the appellate court bench and was elected circuit judge in Delaware county when the Republican majority was 3,500. Muncie has both candidates for attorney general, as James Bingham, the Republican nominee, resides there.

Bryan will make his biennial special train tour of Indiana next fall, providing the Democratic organization can raise the price. Just now the funds are very low. The state committee and the candidates will meet here soon to discuss the situation and do what they can toward raising money. Bryan will return to this country early in September, and it is the desire of the leaders that arrangements be made for a special train. In view of the boom that has been launched for him it is believed that Bryan will be very eager to make the tour. It is likely that Chairman O'Brien and other Indiana leaders may go to New York to attend the reception to be given Bryan on his return from the trip around the world.

AN INTERESTING PLAN

Pennsylvania to Sell Its B. & O. Holdings to Philadelphia & Reading.

Philadelphia, June 11.—A proposition is understood to have been put into tentative form within the past few days to have the Pennsylvania railroad sell its holdings of Baltimore & Ohio stock to the Philadelphia & Reading Railway company. It is proposed to establish an independent trunk line system by combining the Baltimore & Ohio, Philadelphia & Reading and the Jersey Central railways in one company. This would make a railway system connecting all the large cities of the United States from New York, Philadelphia & Baltimore on the Atlantic seaboard, to Chicago and St. Louis in the West.

Americans Go to War.

Mexico City, June 11.—News from the Guatemalan revolutionists operating in the southern part of that republic is that an American contingent consisting of 160 men enlisted in San Francisco, are now included in General Toledo's army. These men, who are especially well armed, came down on the steamer Empire City, now composing practically the navy of the revolutionists, and the first warship ever employed in any Guatemalan war. Much is expected of the American fighters, who are described as being eager to take part and hardly to be restrained.

Caught by Falling Tree.

Newbury, N. Y., June 11.—Miss Irene M. Bunn of West Union, O., was killed here Sunday during a storm by a falling tree. Mrs. J. W. Bunn, mother of the girl, was seriously hurt, and Hazel Coonan, aged fourteen, of Newbury, had her leg broken and was hurt about the head. Miss Bunn, who was twenty-four years old and a graduate of Oxford college, O., was in company with her father and mother. While walking along Grand street, a large tree was blown down by the gale and fell on Miss Bunn's head.

The Longworths in London.

London, June 11.—Mr. and Mrs. Nicholas Longworth reached London early Sunday afternoon, and were met by Ambassador Reid. Mr. and Mrs. Longworth will be the guests of the American ambassador and wife at Dorchester House while in London. It has not yet been announced whether King Edward will entertain Mr. and Mrs. Longworth, but it is expected they will dine with him at Ascot Heath during Ascot week.

Still Pushing the Probe.

Washington, June 11.—The interstate commerce commission will continue its investigation of the method of the coal-carrying and oil-carrying railroads this week. It is holding sessions in Washington today, and will be in Philadelphia on Tuesday, proceeding to Cleveland on Thursday. If the investigation at Philadelphia has not been concluded by Thursday only a portion of the commission will go to Cleveland.

WARM DISCUSSION

Will Follow Conference Report on Statehood Bill in Senate.

FORAKER TO LEAD FIGHT

Ohio Senator Will Bring His Batteries to Bear Upon the Friends to the Measure.

His Special Object Is to Prevent an Agreement Upon the Report.

Washington, June 11.—The conference report on the statehood bill will be taken up in the United States senate tomorrow, and much interest is felt in the subject. The report will probably be called up by Senator Beveridge in charge of the report, but Senator Foraker has given notice that if the friends of the report do not move in that direction, he will do so. No opposition to consideration is anticipated, but there is a prospect of animated discussion of the report on its merits, and undoubtedly considerable time will be required for the determination of the question. Senator Foraker will lead a fight to prevent agreeing to the committee's report.

The business of the week began today with the presentation of the majority reports of the committee on privileges and elections on the case of Senator Smoot, but the further consideration of that matter will be deferred for a time and the senate will continue the consideration of the appropriation bills. Only one of these, the diplomatic appropriation bill, is now ready for consideration. It was taken up today, and as soon as other supply bills are ready they will be placed before the senate.

The Panama sea-level canal bill will be discussed further during the week as opportunity offers, and it will be pressed to a vote as speedily as possible. It is not expected that the conference report on the railroad rate bill will again reach the senate in time for further discussion during the week.

The Week in the House.

There are many subjects of important legislation crowding for consideration in the house of representatives this week. The sundry civil appropriation bill still has the right of way, and if uninterrupted will be passed by Thursday. As efforts to have the senate change its motion respecting the railroad rate bill have failed, this measure will have to be considered in the house before a second conference can be had. The fact that the house is required to consider this, the first report of the conferees, which, in effect, has been rejected by the senate, will reverse the order of consideration on the second report of the conferees giving it to the house first and to the senate last.

The omnibus house building bill carrying authorizations for public buildings aggregating more than \$20,000,000 is to be brought in and passed under a special rule as soon as the sundry civil bill has been sent to the senate. The pure food bill will be brought forward as the next subject of consideration, to be laid aside for the taking up of conference reports.

One of the early actions of the week will be the consideration of the agricultural bill with its worrisome meat inspection amendment attached. The plan is to get this bill into conference at the earliest possible moment. Members of the agricultural committee have become impressed with the necessity for haste in any action to be taken. Continued and increasing injury to the livestock interests have been set forth to the committee with evident effect. The committee took up the Beveridge amendment today, and if possible will bring in a report to the house tomorrow. A motion will be made to disagree to all of the senate amendments, including the beef inspection provision, and ask the senate for a conference.

As soon as the senate acts on the Indian appropriation bill conference report, which is expected early in the week, this report will be called up for action in the house. The statehood conference report, likewise, which is to be taken up by the senate, will furnish business for the house as soon as sent over.

Chancellor Day's View of It.

Syracuse, N. Y., June 11.—Chancellor Day in his annual baccalaureate sermon Sunday, reaffirmed his attitude toward large corporations, saying they were the logical result of the great stride that the world is making. He again issued a warning against the assumption of too much power by the president, and in referring to the reports of conditions in Packingtown slaughter houses, said that if one hundredth part of what was printed was true, people would be dying by tens of thousands.

Mr. T. J. Stephens will move to Connorsville this week where he has a position.

Mr. Albert McNeeley the section boss, goes to Batesville where he has charge of a section on the Main line of the Big Four. We understand he gets an increase of \$15 per month.

It seems to me that some one who has money would make good money on their investment by building some houses to rent.

James Page and wife have returned from Kentucky where he has been visiting.

Mrs. Frank Murphy has come home from Indianapolis where she and her daughter Louise have been visiting Mr. and Mrs. Winchel and Mr. and Mrs. Kinkade.

Mr. and Mrs. J. T. Bussell called on Mr. and Mrs. Green Thompson on Sabbath afternoon.

Protect Your Vitality

F. B. Johnson's Sensible Advice to Take Care of the Digestion.

The vital part of the human machine is the stomach. When it is strong and acts naturally, so that digestion is perfect and the food that furnishes our steam-power is stimulated, and the waste properly removed, then we can do our best work and get the best enjoyment out of life.

On the other hand, if the stomach gives out, all the vital organs will soon become weakened and diseased. There will be headaches, back-aches, pains in the sides and limbs, specks before the eyes, loss of appetite, sleeplessness, weakness and debility.

F. B. Johnson & Co. very sensibly advise people to take care of the digestion by strengthening the stomach with Mi-o-na Tablets, a remedy which they absolutely guarantee is a positive cure for all stomach troubles, except cancer of the stomach, and sell it with the understanding that it costs nothing unless it cures.

Ask F. B. Johnson & Co. to show you the guarantee they give with every 50 cent box of Mi-o-na.

Don't forget to go to Winship's to buy your buggies. 29tf

TO BLOW UP SUBWAY

Men With Bombs Discovered Just in Time at New York.

New York, June 11.—An attempt was made last night to explode a bomb in a manhole of the Interborough Rapid Transit company in front of the power-house at East 74th street, which furnishes current to the subway. One man, Joseph Bartky, twenty-two years of age, was arrested, the police say, as he was about to light the fuse of the bomb as it lay on the manhole cover. Two companions who were with him escaped and the police have sent out a general alarm for their capture. On Bartky were found three other bombs, all being of a uniform size, the shape of a baseball bat, but a little larger. The prisoner declared that he and his friends had found the bombs at a pleasure resort and brought them home to set off later. They went in front of the power-house to do this. As the feed-wires which pass through the man-hole in question carry the main current for the subway, a wrecking of the hole would probably have put the underground out of commission for many hours. Detectives have been assigned to the case to discover if there was any plot or motive for crippling the main.
